JAPAN has had a terrible earthquake.

Both parties are doubtful of the result of Tuesday's election in Ohio.

The United States Steamship Petral has been ordered to China.

WASHINGTON is making unusually elaborate preparations for the approaching session of congress.

At Leland, Mich., the City of Erie dragged anchor during a gale Wednesday and was totally wrecked.

ACCORDING to the decision regarding the Tilden will, the sum set aside for the library was disallowed. By compromise, however, \$2,000,000 will be available.

The Grenadier guards stationed at Windsor castle, again rebelled, this time on account of the unpalatable food given them, which they were ordered to eat.

A LIVERY stable and ten head of horses, the Hallin house, a lumber yard, two stores and a number of dwellings at Hardin, Kan., burned Wednesday afternoon. Loss, \$25,000.

The Boston club left at 4:20 Wednesday evening in a special train for Chicago scheduled to arrive at 3:30 p. m. Thursday, the fastest time ever made between the two cities.

It is stated that a new paper to be known as the South Texan will shortly appear at Richmond. J. W. Henry will be editor. The Zephyr is a breezy little sheet.

The glaze mill of the Ohio powder works, four miles from Youngstown, Ohio, exploded Wednesday, killing Joseph Maugs and Burt Somans. The mill, in which was 500 kegs of powder, is a complete wreck.

BERNHARDT for two weeks cost Chicago \$60,000, and the Chicago Mail critic considers her engagement an artistic success on the part of her advertising agent in working the press.

JOHN SHERMAN, of Ohio, sneers at Southern men, but, icicle though he is, he once warmed to a Southern woman. Everybody remembers his fondness for Eliza Pinkston when he was engaged in stealing the vote of Louisiana for Hayes.

Mrs. WILLIAM ELDIOTT in attempting to save some bed clothes from her burning house was killed by the falling of the floor and her husband was badly burned in endeavoring to rescue her. They were an aged couple and lived on a farm two miles from Shoals, Ind.

HARRISON is now making a desperate effort to climb onto Blaine's reciprocity pony says the Appeal-Avalanche. But he will fail. The reciprocity pony is entirely too small to carry double. It has already about broken down with only one rider.

EVERY day or two a bulletin is issued from the census office. In view of the fact that the fraudulent character of Porter's census has been thoroughly proven, it would be just as well not to waste any more of the people's money in publishing the results.

The Manufacturers' Record of Baltimore, Md., has opened a branch office in London. This is done to further attract the attention of foreign capitalists to the South as a field of investment and will be productive of a vast amount of good. The Record is our great industrial missionary and has been worth millions to the south.

SUGAR-BOUNTY accounts are now coming in at the treasury department. With the bills for the amounts of the bounty come certificates as to the weights of the various quantities of sugar produced signed by the inspecting officers of the internal revenue service. The amount of the bounty is two cents a pound. The treasury officials are already estimating the probable amount which will be required to satisfy the sugar-bounty provisions for all kinds of sugar, cane, beet, and maple. It is reported that they estimate the total amount of bounty at about \$10,000,000. This estimate is regarded as too low by some, who think that the output of beet sugar will considerably surpass current expectations. That, of course, is something which can only be determined later on.
